Dear Sisters of The Corner: You ouldn't think that it would make any lifference whether a watch is would up he morning or at night. I was in-ned from a good authority that it did be considerable difference. When a watch is wound up at night, coung out of a warm pocket and laided down or hung up in a cool place, the mainspring will contract by the cooling off of the al. Being wound up tightly, all ice of contracting has been shut off spring is bound to break.

If however, the watch is wound up the morning, having partly run down through the night, there is room enough reason, he said, why it should be wound up in the morning is that the spring will then have more power, and thus will be in a better condition to resist the disturb-

NOT WRONG TO BE MAPPY. Dear Social Corner Polks: With the Dear Social Corner Folics: With the opening of a new year it would be a grand good thine for those who are always nursing a grouch to rive close study to the many valuable letters on friendship that have been appearing in The Corner. There is as much reason to help others as there is, to refrain from making one's self miserable. Why not he happy and spread a little sunshine?

Why spoil the day ir the folks at home with your grow? Why unload on your infollending neighbors your dismal moods and soured expressions of countenance?
